

# Terms & Conditions: Privacy Trading Sprint (ZEC & DASH)

## 1. Campaign Period

- The **Privacy Trading Sprint** campaign runs from **October 19, 2026, 00:00 UTC** to **November 01, 2026, 23:59 UTC**.
- All qualifying registrations, trades, and volume accumulation must occur strictly within this Campaign Period.

## 2. Scope & Eligible Markets

- The campaign applies exclusively to **Spot trading** across six (6) designated privacy market pairs on Kanga Global:
  - **ZEC pairs:** **ZEC/USDT**, **ZEC/USDC**, **ZEC/oPLN**
  - **DASH pairs:** **DASH/USDT**, **DASH/USDC**, **DASH/oPLN**
- **Fee Promotion:** During the Campaign Period, a promotional fee structure of **0% Maker fee** and **0.1% Taker fee** applies automatically across all six eligible pairs.

## 3. Campaign Mechanics & Reward Structure

- **Entry Tier (\$8 Reward):**
  - Requires registering a new personal Kanga Global account via the official campaign referral link within the Campaign Period and executing a **minimum \$10 USDT single Spot trade** on any eligible ZEC or DASH pair.
  - Limited to the first 60 qualified unique users across platforms (capped at 30 users on TaskOn, 25 users on Zealy and 5 users on OORT).
- **Volume Tiers (Cumulative Bonus):**
  - **Tier 1:** Reach **\$50 USDT** in cumulative Spot trading volume → **\$4 USDT** bonus.
  - **Tier 2:** Reach **\$250 USDT** in cumulative Spot trading volume → **\$10 USDT** bonus.
  - **Tier 3:** Reach **\$500 USDT** in cumulative Spot trading volume → **\$20 USDT** bonus.
- **Non-Stacking Rule:** Volume rewards are **non-stacking**. Participants who qualify for multiple tiers will receive only the single payout corresponding to the highest tier reached (e.g., reaching \$500 volume pays a total \$20 Tier bonus, not \$4 + \$10 + \$20). Where a participant submits for more than one volume tier, only the submission for the highest tier reached will be approved.
- **Volume Calculation:** Cumulative volume is calculated automatically as the sum of all executed buy and sell orders across all six eligible ZEC and DASH Spot pairs during the Campaign Period.

## 4. Reward Currency & Distribution

- **Reward Currency:** All rewards are paid in USDT.
- **Distribution:** Rewards are distributed by the quest platform on which the participant completed the quest (TaskOn, Zealy or OORT), in line with that platform's payout rules. Rewards are not credited to Kanga Global accounts.
- **Distribution Schedule:** Kanga Global will verify all submissions after the campaign closes on November 01, 2026. Only submissions approved by Kanga Global are eligible for a reward. Verified rewards will be distributed by November 21, 2026.

## 5. Participant Qualification & Verification

- Participants must register and submit their verified Kanga account email address through the official campaign quest forms on TaskOn, Zealy or OORT.
- A single verified UID is eligible for only one (1) reward claim across all quest platforms (TaskOn, Zealy and OORT) for the entire Privacy Trading Sprint. Dual submissions using the same UID will be disqualified .
- Volume milestones and eligibility will be verified solely through Kanga Global's backend system trading database export following campaign close. No extra user verification actions are required after form submission.

## 6. Anti-Fraud & Fair Trading Policy

- Fraudulent activity, market manipulation, or abuse of the referral and campaign mechanics is strictly prohibited. This includes, but is not limited to:
  - Multi-accounting, self-referrals, creating fake/sybil accounts, or automated bot activities.
  - Wash trading, self-matching trades, artificially inflating trading volume, or non-economic trading patterns.
  - Exploiting IP/device proxies or temporary email providers.
- Kanga Global reserves the absolute right to audit trading logs, IP addresses, on-chain deposit/withdrawal sources, and account histories. Any account flagged for fraudulent activity will be disqualified immediately and forfeit all reward entitlements.

## 7. General Terms & Disclaimers

- Submitting a quest form on TaskOn, Zealy or OORT does not automatically guarantee a reward payout. All rewards are subject to final data verification, cap limits, and compliance with these T&Cs.
- Kanga Global reserves the right to amend, suspend, or terminate the campaign or modify its rules at any time without prior notice if circumstances beyond its control arise.
- Kanga Global retains the final right of interpretation regarding all campaign rules, volume calculations, anti-fraud determinations, and reward distributions.
